

We are looking for Sponsors !!!

- Company Logo on the front of STARS Summer Camp T-shirts: \$2000
- Company Logo on the back of STARS Summer Camp T-shirts: \$1500
- Company Logo on Back of STARS Booklet: \$1000
- Company name and Logo inside booklet: \$200
- Olympiad Sponsorship: \$2500
- Banner Displayed at Registration Site for 2 weeks: \$1500

Print Sponsor's Name/Company Name:

Please:

- Check the boxes above for the level of sponsorship.
- Detach this part of the brochure and attach to your check
- Make the check payable to:
USF-STARs
- Mail it to:
**USF Cashier's Office
ADM 131
4202 E. Fowler Ave.
Tampa FL, 33620**

For Official use only

USF College of Engineering

STARs

STARs is a NSF Funded GK-12 Project at USF. STARs works with elementary schools in the Hillsborough County to help infuse science and engineering principles in the curriculum.

Check us out at <http://stars.eng.usf.edu> for more information and media coverage

GREEN SCIENTISTS

The Why:

The world has a fixed amount of natural resources which must be conserved for future generations

The Who:

Sustainability calls for the attention of Government agencies, Corporations, Schools and homes.

The How:

Six Key Issues will be explored deeper to prepare campers for future sustainability:

- ★ Water: Efficiency, Reuse and Treatment
- ★ Materials: Recycle, Reduce, Reuse. Biodegradable & Nonbiodegradable
- ★ Energy: Renewable & nonrenewable Green fuel and electricity
- ★ Indoor Air Quality: Heating, ventilating, cooling, pollutants sources & control
- ★ Atmosphere: Global warming
- ★ Innovations: **Green buildings**

STARS program has held 5 very successful Annual Science Summer camps on USF campus.

The theme based summer camps attract over 125 elementary students from all over Hillsborough County. This year the theme is "Green Scientists."

In this camp students will learn all about Energy conservation, Water conservation, Green buildings, Green communities, Green vehicles/transportation, and Recycling.

Got
Green???

Campers will learn the science and engineering perspective of "Going Green"

Previous STARS Summer Camps

Energy (2003)

Water (2004)

Space Exploration (2005)

Light, Photons, and Beyond (2006)

Interstellar Nano-Adventure (2007)

2007 Winners

2007 Lab tour
